Yoduro de Potasio USP

Descripción del Producto

El Yoduro de Potasio es una materia prima que se utiliza como aditivo industrial. Entre las aplicaciones de Yoduro de Potasio, se encuentra su uso como químico intermediario, nutriente, biocida, o en general, como aditivo industrial.

Especificaciones del Producto

Propiedades	Especificación
% Determinación KI	99.0 – 99.9 %
Apariencia (25ºC)	Cristal Blanco
Yodo	75.74 – 76.89 %
Yodato	Max. 4.0 ppm
Sulfato	Max. 150 ppm
Hierro	Max. 20.0 ppm
Metales pesados	Max. 10.0 ppm

Potassium Iodide USP

Product Description

Potassium iodide is a raw material used as an industrial additive. Potassium iodide is used as an intermediate chemical, nutrient, biocide, or in general, as an industrial additive.

Product Specifications

Properties	Specification
% KI Determination	99.0 – 99.9 %
Appearance (25ºC)	White Crystal
Iodine	75.74 – 76.89 %
Iodate	Max. 4.0 ppm
Sulfate	Max. 150 ppm
Iron	Max. 20.0 ppm
Heavy metals	Max. 10.0 ppm
